

DCM Sickle Bar Mowers

A **DCM sickle bar mower** is the right choice when you need a lightweight machine for your small tractor, or when you are mowing ditch banks and other irregular terrain.

DCM sickle bar mowers feature:

- Light weight of less than 500 pounds means they can be lifted easily by any tractor's 3 point hitch
- Ability to cut at angles well above and below level
- Breakaway system protects machine in the event of collision with a solid object
- Crop divider on end of cutter bar provides a clear cutting path on each pass through the field

Features unique to DCM sickle bar mowers:

- Mechanism for lifting the cutter bar requires only the 3 point hitch lift lever
- Ability to cut in the vertical position for trimming hedges and trails
- Adjustable spring counterbalance to reduce the cutter bar ground pressure
- No tractor hydraulics required for operation

Double-action cutterbar increases cutting speed and efficiency

800 S. 9th Street, Terre Haute, IN 47807
