

165 Model
5'-5" Cut

Galfre Compact Disc Mowers

Galfre disc mowers are the best choice for the hay producer who wants the benefits of a wide cut with faster cutting speed than a sickle bar mower. Quality construction from a trusted Italian manufacturer means years of trouble free service.

Galfre disc mowers feature:

- Fast cutting speeds and absolutely no clogging under any conditions
- Safety breakaway to prevent damage to machine if large obstruction is hit
- Crop divider on end of cutter bar provides a clear cutting path on each pass through the field
- Simple single-action hydraulic cylinder raises cutterbar for transport
