

MTZ 135

R2 Power Harrows

The **MTZ Power Harrow** by R2 Rinaldi is the only low horsepower harrow on the market that mills, aerates, and levels the soil in a single implement. Recommended by Jean-Martin Fortier – author of *The Market Gardener* – the MTZ is great for gardens, fields, construction sites, sporting facilities, and anywhere else you need perfectly leveled ground.

Components and Features:

- Italian engineering and manufacturing quality
- Hardened steel gears run in an oil bath
- Side panels are spring-loaded to allow rocks to pass around outer rotors without damaging tines
- Adjustable-height scraper blade in front pre-grades the soil for optimal leveling
- Rear mesh roller leaves an attractive pattern optimal for seedbed formation
- Working depth of the rotating tines is fully adjustable
