

TTR 4400 HST

Hydrostatic and Reversible

More tractor for the money - and many machines in one. The TTR 4400 HST machines are hydrostatic, reversible and multifunctional. The machine-attachment combination is almost endless, performing a wide range of operations: maintaining parks, manicuring golf courses, cutting grass on roadway edges and the steepest of slopes, moving material and digging, and clearing snow, to name a few. To call it just a tractor undersells its capabilities - it is truly a multifunctional tool carrier.

The speed and agility of the TTR 4400 HST, its exceptional steering, compact dimensions, and low-noise operation, make this a perfect machine for the public sector. No other machine can provide the productivity, safety, and maneuverability to perform property management tasks all year around.

SPECIFICATIONS:

Chassis type	Oscillating chassis with front steering; 4 equal wheel drive; reversible operator's station			
Engine	Yanmar TNV88			
Cylinders	3			
Output (hp)	38			
Max. engine RPM	3000			
Cooling System	Water			
Fuel tank capacity (gal.)	7.7			
Transmission	3 range hydrostatic, foot controlled toe/heel forward and reverse; 0-4 mph in low range, 0-8 mph in normal range, 0-17 mph in high range; "cruise control" option for maintaining pre-set speed			
PTO	Fully independent PTO with 2 speeds, 540 and 1000 rpm (clockwise)			
Implement lift	Standard Category one 3 point hitch			
Lifting capacity (lbs.)	1870			
Steering	Hydrostatic with "load sensing" system			
Tires	7.5-16	29x12.5-15 turf	29x12.5-15 lug	26.5x14.5-12 special turf
Minimum width (in.)	46	54	54	59
Ground clearance (in.)	10.8	10	10	8.7
Weight (lbs.)	2450			
Standard equipment	Rotating operators station for immediate reversibility of driving position; front and rear differential lock; disengageable rear wheel drive; adjustable suspension seat; 2 sets of hydraulic ports with one set duplicated on front of tractor			
Wheelbase (in.)	51.2			
Length (in.)	122			
Height (in.)	78.2-80.3
