

TXP33 MINI ROUND BALER BY ABBRIATA

with net wrap | 3 point hitch

The TXP33 Mini Round Baler by Abbriata is the industry standard for commercial pine straw producers. These are commercial duty balers that will stand up to the demands of continuous use, day in and day out. With 20% more steel than the nearest competitor and a proven track record of durability, why would you choose anything else?

Features

- 3 point attachment is ideal in very tight conditions where very tight turns are required, like in tree plantations.
- 3 point attachment allows the baler to be lifted up off the ground when crossing over windrows to get to another part of the field or forest.
- Baler can be lifted off the ground without shutting off the PTO making tight turns more efficient.
- Available with twine or net binding with no additional charge for net binding option.
- All-chain drive of the rollers and pickup, along with dual shear bolt protection, results in better performance and reduced risk of machine damage.
- Adjustable pickup guide wheel.
- Automatic bale counter.
