

TX31 IBEX MINI ROUND BALER

If you are a small farmer who is ready to make the jump to doing your own hay baling, the **Ibex TX31** is the baler for you! Finally, you can control the quality of your hay by baling when the hay is at peak nutritional value, instead of when the farmer down the road gets around to it. This is the most affordable mechanical baler on the market and is recommended for customers baling up to 1000 bales per year.

Features

- Simplest, easiest to use baler on the market today.
- Requires as little as 20 horsepower to operate.
- 3 point attachment allows for easy maneuverability in tight fields and paddocks.
- Lighter weight enables safer operation on sloping ground.
- 3 point hitch attachment and completely self-contained hydraulics eliminate messy hydraulic connections.
- Uses standard, inexpensive baler twine, either plastic or natural fiber.
- Small size allows for convenient storage in the corner of a barn or shed.
- Provides a high-quality machine at a low price - the lowest in the industry.
